Allowable Subject Matter

1. Claims 1-41 are allowed.
2. The following is an examiner's statement of reasons for allowance: the reasons for allowance of claims 1-37 presented in the last Office Action are not repeated herein, but are incorporated by reference. With respect to claims 38-41, the closest prior art to McCubbrey does not, among other things, teach or fairly suggest forming an image processing chain with a plurality of image processors, the plurality of image processors being software modules stored in memory located within the digital image capture device having an image processing backplane for forming the chain, ⁵ a parametric control ^{is} ~~coupled to at least one of the two or more~~ ^{an} image processors, ^{are} wherein ~~the~~ parametric control ^{is} ~~is~~ accessible by a user of the device for modifying ~~at least one of the two or more~~ image processors. It is for these reasons and in combination with all ^{other} the elements in the claims that claims 38-41 are also allowable over the closest prior art to McCubbrey.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
